# Health Services Department Medication Administration Request Form

Texas law permits a public school to administer medication prescribed by a physician/licensed prescriber to a child on behalf of the parent or legal guardian under certain limited circumstances with an appropriate written authorization. The only medication that may be given at school is that which is necessary to enable the student to remain in school. If possible, all medication should be given outside of school hours. Three times a day medications can be givenbefore school, after school and at bedtime. All medications and equipment shall be provided by the parent or legal guardian. If necessary, medication can be given at school under the followingconditions:

- 1. Medications must be in original, properly labeled containers. The pharmacy can supply two (2) labeled bottles for this purpose. Medications sent in baggies or unlabeled containers will not be given.
- 2. Medications will not be given without a specific written request signed by at least one parent or legal guardian and physician/licensed prescriber. This request should be made on the appropriate form supplied by the school or on a form supplied by your physician/licensed prescriber.
- 3. Medications may be given by a staff member designated by the principal and trained by the school nurse.
- 4. *Medications must be kept in the nurse's office in a locked cabinet.*
- 5. Parents may bring up to one month's supply of medication. Empty medication containers may be given to students.
- 6. Herbal medications, dietary supplements and other nutritional aids not approved as medication by the FDA may not be administered at school.

Please contact your school nurse if there are any questions.
