

TRIMBLE TECH BAND BOOSTERS

1003 W Cannon St, Fort Worth, TX 76104

Dear Business Neighbor:

Did you know that your local, neighborhood high school band - the Trimble Tech Bulldog Band - has been a regular sweepstakes winner for many years? Unfortunately, the Coronavirus has put a temporary stop to our music. We need your help to start the music again!

We would like to extend an invitation to you to partner with the Trimble Tech Band Boosters (TTBB). Varying levels of sponsorship are detailed and included in this letter explaining the business perks you will receive during football games, our website www.tthsband.org, and concert programs. Your sponsorship will enable the band booster program to continue providing quality educational opportunities to approximately 60 students who participate in the amazing TTHS band program. Please consider making a tax deductible donation to sponsor our students throughout the 2024/2025 school year.

The Trimble Tech Band Boosters is a 501(c)(3) organization dedicated to supporting the pursuit of excellence our band strives toward. Although the TTHS band is supported in part by the Fort Worth Independent School District and student fees, the band boosters cover the many additional expenses that must be met to continue our commitment to excellence and to bridge the gap left by recent district budget cuts affecting the band program. These expenses include the purchase and maintenance of our band equipment, increasing transportation costs, maintenance of uniforms, marching drill design and music, expert instructors and technicians for marching, percussion and color guard, contest fees, recordings, communications, and operating expenses.

We know you care about the community where you live and work. School leaders affirm that the single most critical factor in sustaining arts education in their schools is the active involvement of influential segments of the community¹. The importance of music in education is well-documented and known to teach important skills, including problem-solving, decision making, building self-confidence, self-discipline, promoting responsibility, teamwork, and the development of perception and vision. Additionally, secondary students who participated in band or orchestra reported the lowest lifetime and current use of all substances (alcohol, tobacco, illicit drugs).²

For more information concerning the many opportunities to partner with the Trimble Tech Band Boosters, please contact me at (216) 235-1045 or by email at jacob.belk@fwisd.org. We look forward to partnering with your company for the 2024/2025 school year!

Thank you for your support!

Jacob Belk
